Our longtime collaborator, friend, and all-around genius **Richard Kern** just had a book, fittingly titled *Shot By Kern*, published by art book giant, **Taschen**, and wow, the thing is gorgeous. If you fancy yourself a cultural connoisseur, or if you just like looking at artistic photos of beautiful naked women, you need to grab a copy. Tomorrow in New York, in celebration of the release the book, Taschen will be hosting a book signing event that will feature a conversation between Richard and Dian Hanson, who has worked for such fine pornographic publications as *Juggs*, *Leg Show*, and *Outlaw Biker* and now is Taschen's **Sexy Book** editor. It will also, of course, be a party that will include drinks and music spun by Cameron Mesirow of Glasser. Check out the invite below for info and how to **RSVP**, because you won't want to miss it.
