Taschen continues their large-format fashion portfolio books featuring the fashions of Rick Owens and Raf Simons. The series is a collaborative project with i-D Magazine who have for years photographed the respective designers' work for print. Now, for the first time, i-D collects and archives the collections. Featuring photography from the greats including Willy Vanderperre, Sølve Sundsbø, Hans Feurer, and many others, the portfolio books serve as excellent reference materials for your home or work.

Both books are forthcoming on Taschen July 15. Pre-order from Amazon for \$25.

Also available, the portfolio of Rei Kawakubo.
