

WILL INSPIRE YOU IN ALL ASPECTS OF THE

LIVING IN MOROCCO

Barbara and Rene Stoeltje, Taschen, \$65.

It's probably worth investing in some clear contact and covering every page of this 280-page book. The pictures are sumptuous, colour-drenched and simply divine, so you really do need a drool-protector. The authors have sourced

incredible homes from around Morocco, dedicating a paragraph to the owner, then letting the pictures do the talking. This is a seriously inspirational book if you're going to do the Moroccan theme at home, as the combinations of colour, texture and rustic versus new will give you some fantastic ideas.
