### START THAT DESIGN LIBRARY

Pick up a copy of *Fashion Now 2*, which is out this month from Taschen ([www.taschen.com](http://www.taschen.com)). An expanded version of the original book, the sequel has even more designer profiles (read about Karl Lagerfeld and Karen Walker), essays on hot-button topics in the industry (like "the precarious position of the celebrity designer"—yeah, um, rich) and fantastic photos edited by Terry Jones, the creative director for the legendary British style magazine *I-D*. Forty dollars is a bargain for 640 chic pages to pore over.
