

For the sweaty-palmed cineast

We're not gonna lie. There's tons of nudity in this book.

Supposedly, Douglas Keeseey's **EROTIC CINEMA** (Taschen, \$19.99) offers an academic look at movie sex—from the first kiss on film (1896) to the orgy scene in 2001's *Y Tu Mamá También*—but we were too distracted by the topless pics of Hedy Lamarr and Sophia Loren to notice.
