

Lil' kim's a bag lady!

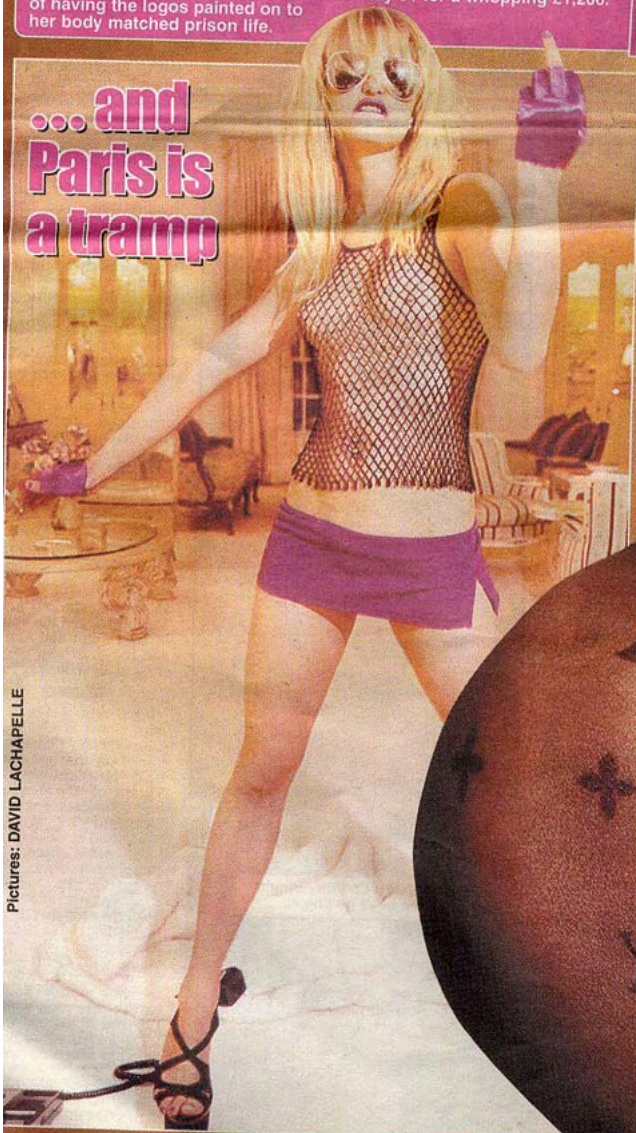

“BAG” girl of rap Lil’ Kim reckons posing for seven hours for this amazing picture prepared her for life behind bars. The sexy star was jailed for 366 days last September after being found guilty of perjury in the US. But before she was sent down, she posed as a Louis Vuitton bag for this sizzling shot by celebrity photographer David LaChapelle. The star, 31, said the boredom of having the logos painted on to her body matched prison life.

She said: “I didn’t know it then but it was good preparation.” The snap is featured in a book of photographs by LaChapelle, which also includes shocking images of Paris Hilton, below, and Madonna. Limited to just 2,500 copies worldwide, the book goes on sale on May 31 for a whopping £1,200.
