**LEROY GRANNIS**

**SURFING U.S.A.** LeRoy was here—and he's got the photos to prove it. In the early '60s, LeRoy Grannis began to snap the fledgling surf scene as it started its crossover to broader appeal. *Surf Photography of the 1960s and 1970s* (Taschen) is a limited-edition, large-scale (15.6" x 13") collection of some 250 of his images, with candid photos of the stars and styles and lots of action shots (the above was taken in Newport Beach in '76; he also captured spectacular wipeouts). \$400, [taschen.com](http://taschen.com).
