BOOKSHELF:

The world of ornament

A detailed exploration of the evolution of ornamental design, this enormous, cloth-covered tome brings together two 19th Century encyclopaedias full of ornamentation inspiration. The lavishly colourful pattern plates were adapted from historical items dating back to antiquity, such as jewellery, ceramics, stained glass and textiles. Better still, the patterns aren't restricted to stuffy English or French designs, there are also chapters on classic Egyptian, Greek, Roman, and Etruscan motifs and Asian and Middle-Eastern patterns. There's even an easy-to-use DVD with digital versions of all the patterns, perfect for creating stencils and templates to decorate your home.

這本布面巨著匯集了兩部滿載著裝飾靈感的十九世紀百科全書，仔細深入探討了裝飾設計的發展進程。色彩華麗、圖案鮮明的盤碟是根據古董物件仿製的，如珠寶首飾、瓷器、彩色玻璃及紡織品。物件上的圖案並不局限於較古板的英國或法國設計，還有關於古典埃及、希臘、羅馬的章節，以便伊特魯里亞圖案和亞洲及中東圖案。書中甚至配有容易使用的DVD，有所有圖案的數碼形式，以便裝飾家居時參考。
