WE LOVE BUTT

Do you want to hear how photographer Wolfgang Tillmans developed a kinky thing for religious types after being given a BJ in a church sacristy? How about the time writer Edmund White was made to kneel at the front door of the house of one of his lovers and wait with a 100-dollar bill in his mouth? *Butt Book* (Taschen, £16.99), is the engrossing, must-read anthology compiled from the last five years of Danish-based *Butt* magazine. There are juicy confessionals by the likes of Gus Van Sant, Michael Stipe, Bruce LaBruce and John Waters, as well as nudey pictures and general reader rudery. Shocking! For the art fag perv in all of us. *Out now, available from Prowler Stores, £16.99,* www.buttmagazine.com. ■
