

#### Architecture Now 4 (Taschen)

This is the fourth in Taschen's excellent series, keeping us up-to-date with the sharpest minds of the architecture scene. These books have gained a reputation for their virtually comprehensive account of what is going on inside and outside buildings across the world. It does indeed take you across the planet to places where you mightn't expect to see such innovative design. If only education could always be this exciting and appealing in its presentation. Once you have Architecture Now 4, it's unlikely you won't head out immediately and complete the set, many of which are deemed essentials within this field.
