

**Inside Africa Volumes 1 & 2**

Photographer Deidi von Schaewen, editor Angelika Taschen

Two books uncovering the magnificent style, design and architecture of the African continent, Inside Africa is a mind-blowing experience. Vol 1 covers East and North Africa, exploring its distinctive Islamic influences, while Vol 2 travels West and down to South Africa, both revealing interiors beyond description. Dwellings range from the most luxurious modern homes to simple mud huts, artists' studios, townships, minimalist houses and many more. A huge step away from the tired stereotypes, these beautiful books paint Africa as a magical place swamped with creativity and wonder. ★★★★★
