

The New Erotic Photography

Taschen, £30,

ISBN 978-3-8228-4924-8

To say Taschen's latest book is a mixed bag would be an understatement of mammoth proportions. There's a lot of great stuff here, from the usual suspects (Steve Dietz, Eric Kroll, Ben Westwood) to some less familiar names (Alethea Austin, Barney Cokeliss, Aaron Hawks), and a healthy smattering of truly great pictures, erotic or otherwise. It's just that the majority of the pictures featured challenge what you and I would consider truly erotic. But maybe that's the whole point.
