Test(ino) Shots

Leading fashion photographer **MARIO TESTINO** has created iconic images of just about every Hollywood A-lister around: Madonna, Gwyneth Paltrow, George Clooney, Brad Pitt, Jude Law, Jennifer Lopez, Beyoncé, Cameron Diaz, Catherine Zeta-Jones—you name 'em, he's immortalized 'em. But seeing those spontaneous moments that happen before, after and during the taking of Testino's thrilling shots has been the privilege of a select few—until now. The new book *Let Me In!* (Taschen) collects hundreds of intimate images from the lensman's personal archives, such as the photo of Demi Moore applying lipstick to Ashton Kutcher's face that graces the book's cover. Nicole Kidman (another of Testino's famous subjects) penned the foreword.
