

DIANA, PRINCESS OF WALES

Patrick Kinmouth, photographs by Mario Testino

Showing her happy and relaxed, Mario Testino's wonderful photos of Diana, Princess of Wales, for *Vanity Fair* magazine offer a permanent memorial to a woman whose iconic status often overshadowed her real personality, something this photo shoot amply redressed. Arranged in conjunction with a charity auction, Diana's session with Testino dates from March 1997, just five months before her death. Diana is pictured in the dresses due to be auctioned, yet devoid of the usual celebrity trappings, and the results are some of the most enchanting pictures ever taken of her. This series of sixty photos – some newly published – serves as an enduring testimonial to Diana at her radiant best. *Taschen 160pp Hb.*
