THE NEW EROTIC PHOTOGRAPHY

Taschen books has a reputation of spotlighting the best artists, photographers and artist / photographers in the world so it's no surprise that *The New Erotic Photography* collection is a veritable who's who of merging modern titillation and art. Among the modern masters we have Lisa Boyle, Bruno Bisang, Florian Lohmann, Olaf Martens, Ken-Ichi Murata and many, many others. Even after 610 pages you'll be wanting more. It's like watching all movie previews and then aching to see the feature version.
