

Top shelf draw: Vanessa Del Rio

VANESSA DEL RIO: DIAN HANSON

Snoop Dogg dreamed about having sex with her, and Foxy Brown called her a role model, but the American porn industry in 1974 just wasn't ready for a Latino porn star. Vanessa del Rio, famed for her extremely large clitoris and insatiable appetite for sex, took any role she could, and with 200 pornos behind her, eventually became a top box office draw. In this glossy tome, the overtly sexual and curvaceous idol has supplied Taschen with hundreds of explicit pictures from her own archive. Partnered with Vanessa's own words, this is as eye-opening as a bio has ever been.
