

Double take: Paris Hilton, Britney Spears and Jack Nicholson as seen by Alison Jackson

"I haven't got a Gordon Brown," despairs artist Alison Jackson, famed for her *faux*-celebrity pap shots. "It's devastating, because it looks like he might be in for four years." For Jackson, Blair's handover has proved a challenge, and not just because Gordon lookalikes are scarce. "Blair was fabulous because he played up to the showbiz. Brown, unfortunately, is extremely boring." Out this month is Jackson's second book, in which Bill Clinton and the Queen share the limelight with Paris and Britney; Jackson shows us what we're all imagining, and with that delivers some wickedly funny payoffs. *Alison Jackson Confidential* (Taschen, £24.99) is out on 10 October.
