

FOLLOWER OF FASHION

This gorgeous twin set of coffee table books offers a stunning visual history of costumes and clothing. *Fashion: A history from the 18th to the 20th century* (Taschen, \$150) takes a (sometimes uncomfortable) walk through fashion history, as it is represented in the Kyoto Costume Institute collection. The two books in this set take in only Western clothing of the 300-year period, but

is still a fascinating, often startling, overview of what women put themselves through in the name of fashion. It'd make a great Christmas present for the fashionista. We have one copy of *Fashion: A history from the 18th to the 20th century* to give away. To enter email your name and address to detours@heraldonsunday.co.nz with Fashion History in the subject line to reach us by 5pm on Friday December 7.
