

What have Audrey Hepburn and Jennifer Lopez got in common? They've both stopped the show in Valentino. To celebrate the designer's indelible imprint on fashion, Taschen have released a limited edition tome, *Valentino Garavani: Una grande storia italiana*. This seriously decadent book includes original sketches, jaw-dropping fashion imagery and celebrity comment, and comes encased in a silk-finished clamshell box imagined by Valentino himself. At www.taschen.com, €1,000.
