

Vanessa Del Rio: Fifty Years of Slightly Slutty Behaviour

Del Rio & Hanson
Taschen

IN *Fifty Years of Slightly Slutty Behaviour*, Vanessa del Rio flies us over every last detail of her transcendent career in pornography. Revealing sex in all its stickiest manifestations, the Latin from Manhattan recalls the time she was screwed while hung from a rafter—hog-tied and suspended by a rope—and later (off screen) fellating taxi drivers just for kicks. Indeed, Del Rio enlivened the maxim that we want all erotic performers to have—'sex for sex's sake'. She was passionate and her passion was insatiable—orgies, endless anal and miles of cock never gave her particularly tumescent bits all that they needed. For passionate Del Rio fans, this oversized hardback is more than enough—glossy spreads, stills and words straight from Del Rio's mouth exhibit a remarkably candid, confident and exuberantly sexual woman. The bonus 140-minute DVD that comes with the book is also a nice touch—and vital for putting a buck to a face.
