

THE BIG PICTURE

Priding itself on monitoring our cultural pulse, i-D magazine relies on its weighty and wealthy stock of contributors to maintain its cutting-edge image. Soul i-D (Taschen, £24.99) brings together the best contributions, taken from five themed projects and books: from Family Future Positive (reflecting on what family means) to Safe+Sound, a range of responses to surviving hard times. Top artists, designers, writers and photographers (including Donald Christie, whose image of St John's Ophthalmic Hospital, Jerusalem, is pictured) all offer their take on today's issues.
