

THE SECRET LIFE OF BIBLE BELT SWINGERS

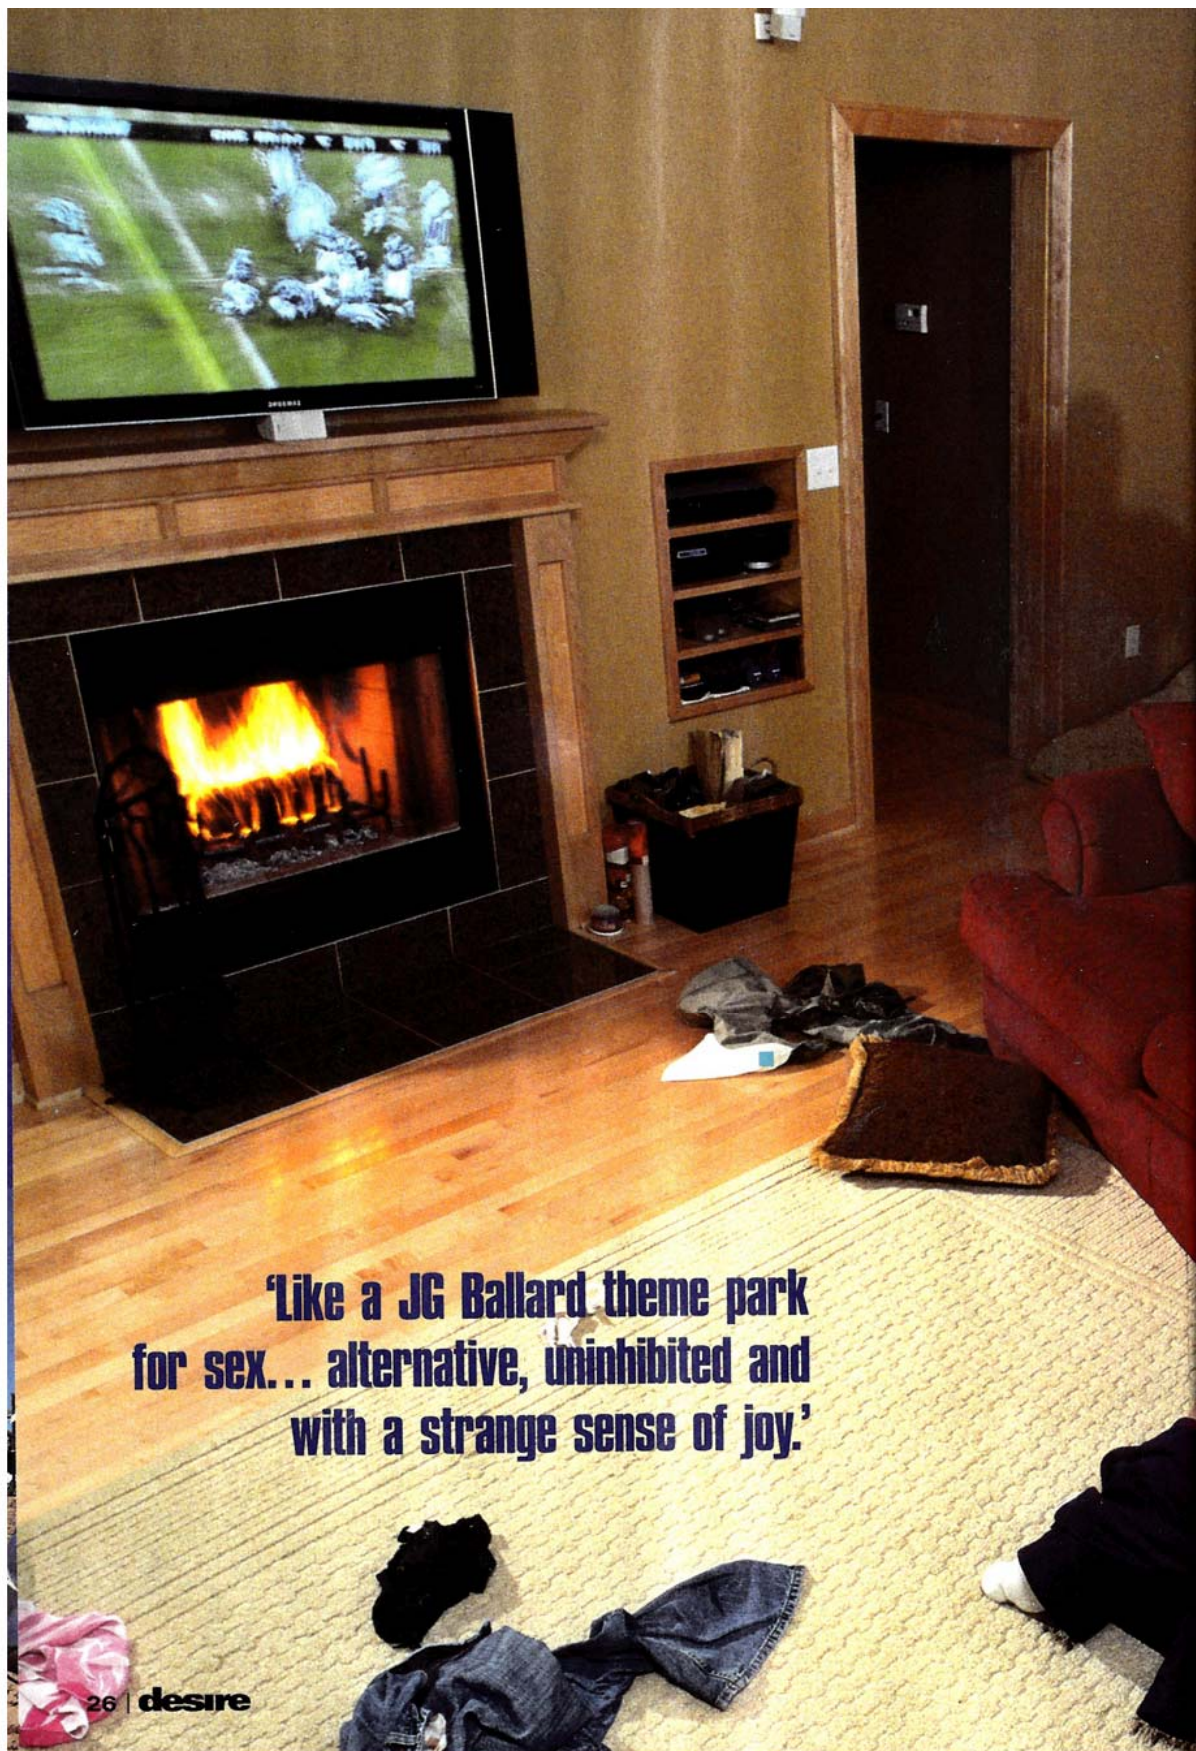

NATIVE NEW YORKER, Naomi Harris, packed her camera and criss-crossed the USA from New Jersey to California via Texas, to create this remarkable record of the life of swingers, including multi-orgasmic schoolteachers, polyamorous nurses, bisexual senior citizens and a group of black males who service white wives.

In order to gain their confidence and be able to penetrate this world, Harris teamed up with Canadian artist Richard Price. He joined her on the road, often working in only shoes – and a tool belt to hold her photographic gear. And in his introduction to their new book, *America Swings*, Price describes the results of this four-year journey of discovery as a 'JG Ballard theme park for sex. Something that is gloriously alternative, uninhibited and with a strange sense of joy.'

Here's a preview of their book, which is published as a limited edition of only 1,000 copies, signed by Naomi Harris and Richard Price. Should you wish to feast your eyes on more of this sumptuous volume, a copy will set you back a cool £300. *America Swings* is available from August 2008 from www.taschen.com
