**'JAZZ COVERS'**

Before Hipgnosis and Roger Dean pioneered the freaky album cover for Pink Floyd and Yes, rock art paled next to jazz LP jackets. From the classy, telling portraits of Miles Davis and John Coltrane to the swingin', curvy pinups adorning forgotten relics, "Jazz Covers" brings together more than 650 iconic and rare images from the 1940s to the 1990s. (Taschen, \$39.99)
