

FRIDA KAHLO

Andrea Kettenmann

£7.99

Taschen

The name Frida Kahlo might conjure up images of an important feminist icon, the most famous monobrow since Liam and Noel, or a film starring Salma Hayek... Whatever your perspective, this collection of works chronicles the life and achievements of one of the very few Latin American artists to achieve a global reputation, and a precursor to the Tracey Emin breed of confessional, sorrowful works with her famously arresting self portraits.
