

NEW YORK LIVING

### *New New York Interiors*

In the ten years since Taschen published the original *New York Interiors*, a lot has changed in the city. Long a Mecca for creative people, the city is now home to an new influx of graphic designers, interior designers, artists, gallerists, and collectors, not only in Manhattan but in increasingly trendy areas in the boroughs. Edited by Angelika Taschen, this new collection provides a fascinating look inside thirty-nine homes of the *new* New York, (some by top interior designers, some of the inhabitants own inspired making) including homes of artist and director Julian Schnabel, musician Rufus Wainwright, and actress Julianne Moore.
