

**ROY STUART  
VOLUME II**

(Taschen)

Rating: \*\*\*\*\*

All cool people are called Roy. Roy Ayers. Roy Orbison. And now, photographer Roy Stuart. His explicit photographs make Helmut Newton and David LaChapelle's look amateur in comparison. Tasteful, voyeuristic and bordering on smut, Roy has picked a selection of beautiful femme fatales with that typical European bravado and exposed them in compromising positions and situations: in the bedroom, in front of the Eiffel Tower, hell, even in the street and at the gym - naked being the theme du jour here. Move over Larry Flynt.
