

*Robert John Thorntons Temple
Of Flora, Taschen*

What they say: Thorntons large-format plates with their stunning floral portraits number among supreme achievements of botanical illustration. This resplendent reprint has been made from one the finest original copies.

What we say: All 33 of the stunning colour prints are loose leafed, which is ideal for those looking for beautiful images to frame or reference. The book is €100 which works at around €3 per print, a good price for these iconic images.
