

Leg work: This month L.A. author Dian Hanson follows up her best-selling *The Big Penis Book* and *The Big Book of Breasts* with a coffee-table version about a less obvious object of erotic fascination. *The Big Book of Legs* (Taschen, 372 pages, \$59.99) reproduces photos spanning more than a century, punctuated by Hanson's observations. "Your sexual response to the leg is more a quirky, acquired taste," she tells us. "Whereas the breast and the butt—your old animal brain will lead you there."
