

Christopher Wool

Hans Werner Holzwarth (Ed)

TASCHEN

\$1,900

The harder you look, the harder you look is the text of one of Christopher Wool's word paintings from 2000. It's a good example of how he states the obvious while provoking deeper thought. Wool became known in the '80s for his all-over paintings. This monograph is an exhaustive 500-page exploration of his work.
