

## Jeff Koons

EDITED BY HANS WERNER HOLZWARTH

(£39.99, Taschen)

The high priest of kitsch gets the statement-book treatment with this new title from Taschen. The tome surveys the many highlights of Koons' artfully overblown career, from his portraits of his former wife, La Cicciolina, to *Hanging Heart*, the balloon-esque sculpture that, for a time, made him the most expensive artist alive.
