Kahlo

Andrea Kettenmann
Taschen, \$34.99.

German-based art publishing house Taschen has always prided itself on making unique, high-quality books at affordable prices, but it's really outdone itself with the release of special 25th anniversary editions of many of its most popular titles. The range includes volumes on artists such as Mexican painter Frida Kahlo – one of the few Latin American artists to have achieved a global reputation – as well as Paul Cézanne, Lucian Freud, Amedeo Modigliani, Jackson Pollock, Henri de Toulouse-Lautrec and many more. At this recession-busting price, and so pretty, you'll want to have them all.
