

## **GARDENS IN FRANCE**

**Marie-Françoise Valéry**

**Published by Taschen RRP \$55**

**Distributed by Tower Books**

**Available in all good bookstores**

Take a tour of France's most divine gardens with *Gardens in France*. Each page is a burst of inspiration and colour, the doorway into a realm dedicated to nature and beauty. Through the countryside of France are gorgeous arrays of gardens at their finest. Deidi von Schaewen delivers breathtaking photography, encompassing the complexity and vastness of each individual garden.

Whether you're working on your own garden or merely enjoying the tranquillity of lush greens, this book has something for everyone — from old-century garden styles to gardens filled with an assortment of colour, courtyards that look like they're from the Versailles Gardens that guarded medieval buildings, and hedges in unbelievably kept patterns. The superb photography and insightful writing makes this read an inspiration for all garden enthusiasts.
