

**A Book to Replace  
It With When the  
In-Laws Visit**

Who doesn't love watercolours of exotic animals? Except then you notice the elephant has a huge erection and the wolves are bleeding all over the bison. Walton Ford's collection of paintings, *Pancha Tantra* (Taschen, \$70), is a bizarre and visceral imagining of the animal world, benign at a glance, and underneath, brutal, sexually charged and strangely beautiful. Audubon this ain't.
