

**ARCHITECTURE NOW! Restaurants & Bars,**  
By Philip Jodidio, Taschen, \$40

SIMILAR IN DESIGN and concept to the other popular *Architecture Now!* books, *Architecture now! Restaurants & Bars* focuses specifically on restaurants and bars around the world, from Tokyo to Bangkok, Brazil to New York City. To truly capture the niche that iconic restaurants and bars occupy in the collective consciousness, *Restaurants & Bars* looks beyond matters of space, exploring the intersection between design, architecture, food and drink that many of these establishments have come to represent. More ephemeral by their very nature than entire buildings or large public spaces, restaurants and bars show a more direct connection to the pulse of the design industry — and from the minimalist to the baroque, *Restaurants & Bars* puts them on display with a discerning, sophisticated eye. —JS
