

What Katie did

Early on in Kate Moss's career, Mario Testino recognised that the model would go far. In a new, limited-edition book from **Taschen**, Testino and Moss collaborate to provide a rare and intimate glimpse into the relationship between the photographer and the model. The book features more than 100 of Testino's images, including unseen material from the photographer's archive.

Of Testino, Moss said: "Mario took me to a new level of glamour. I don't think anybody had seen me as any kind of sexy model before he did..."

Later other people started working with me in that way, but he was the first."

Kate Moss, by Mario Testino, Taschen, priced £300, ISBN 978-3-8365-2503-9.

To coincide with the publication of the new book on Kate Moss we bring you some of our favourite quotes from Mario Testino:

- "I'm not a prude, but there's a billboard at the moment showing David Beckham in his underwear, with his balls hanging out. Personally, I don't find that attractive in a man."
- "Someone once described one of my photographs as being about the kind of woman who might lose her dress on her way out of the party."
- "Women are beautiful. All that really matters is enhancing that."
- "I don't do men very often. I do mainly women, that's my line of business."
- "I really hate to retouch a person. I sort of clean."
- "The moment I started doing girls dressed in the tiniest bikinis my pictures really came alive."
