**HOWARD HUANG'S URBAN GIRLS EDITED BY DIAN HANSON (Taschen-\$39.99US) 260 pages**

Okay, so you have been nice all year. Now is the time to get a little naughty with HOWARD HUANG'S URBAN GIRLS. The book is a tribute to comic books and anime with women posing in all sorts of fantasy shots. It should be pointed out, that although the women appear in sometimes very skimpy and next to nothing attire, there is no nudity here, nor showing what would be considered adult body parts.

Dian Hanson, Taschen's resident sex book editor has added commentary, but the photos speak for themselves in more ways than one. The women, who are actresses, models, and singers, all indulged in Huang's fantasy-induced photo shoots, dressing up like Wonder Woman, gladiators, gun-toting molls, jungle queens, motorcycle mamas, seductresses, and much more.

The scenery around the photos is most imaginative as well, with city streets by night, grocery stores, and other exotic looking backdrops. You can reward yourself with this most impressive book, or present to someone who can appreciate the originality of the photos and the very exotic looking ladies, who make the book sizzle like a fourth of July firecracker.
