

20th-century boys – and girls

A new encyclopedia of the finest monographs by 20th-century photographers showcases such important photographers as Ansel Adams, Diane Arbus and Cecil Beaton. Many, like Terry Richardson and Wolfgang Tillmans (whose work is pictured below), are still producing new work; however, what they all have in common is a huge contribution to the art form. *Photographers A-Z* features facsimiles from books and magazines and is authored by German photography writer Hans-Michael Koetzle.
