Linda McCartney: A Life in Photographs

Taschen £44.99 (Collector's Edition, £650, 750 copies, signed by Sir Paul McCartney available at taschen.com)

Rock 'n' roll photography doesn't get much more intimate than Linda McCartney's *Life in Photographs*, a collection of subtle portraits from the 60s to the 90s that blends candid moments from music's good, bad, and beautiful with a warm family album-style record of the McCartney clan. Chosen by Paul McCartney and their children from over 200,000 images, the book is a lasting testament to a versatile, evocative talent, and features commentary from influential art historian, curator, and former Linda McCartney collaborator Martin Harrison.
