City guides, Taschen

These beautifully designed travel tomes from luxury publishing house Taschen are not your typical pocketbook guides to pack and carry around—their weight and hardbound covers are definitely not travel-friendly—but are chic coffee-table books for discerning and sophisticated travellers. Curated by Angelika Taschen, the founder of the publishing house and a global jetsetter herself, the guides feature a mix of quirky illustrations and stylish photographs, and are packed with insider tips and precious advice that will make you shop, eat and sleep like a native New Yorker or Londoner. So whether it's a shopping spree in the City of Lights you desire, or a night on Broadway in the Big Apple, these creative gems will take you on a magical journey in the comfort of your living room and provide plenty of inspiration before you embark on your next glamorous jaunt to one of these capitals of cool.
