## The Bookworm Presents: 1000 Pin-ups Girls

1000 Pin-up Girls is another Taschen book that I recently purchased. The book starts with an article (in English, German and French) on Robert Harrison creator of such magazines as Beauty Parade, Eyeful, Titter, Wink, Whisper and Flirt. The rest of the content is cover shots from these magazine with a few articles thrown in for good measure. The book is a fantastic reference for anyone interested in pin-up pictures but there's little written content to really comment on so I'll leave you with one of my favourite magazine covers from the book
