Taschen, \$59.95
ISBN 9783836521826

From the people who brought you the *Big Butt Book*, *The Big Book of Breasts*, *The Big Penis Book* and *The Big Book of Legs* comes yet another erotic and in-depth exploration of the body part that man spends his whole life trying to get back into. Author Dian Hanson explores the historic, erotic, and factual history of women's vulvas and their ability to sway, scare, sweat, and to cause reverence in cultures across the world. The idea of exposing any private part, especially the pussy, has been regarded as shameful, and this book attempts to re-imagine the subject, with women smiling from dimple to dimple as they expose their forbidden fruit. Included are interviews with vag celebrities, like Pussyman, the ex-cop who made the Fleshlight© and the vaginal performance artist Mouse, along with many others. There is a wide variety of subject, from blondes to redheads, hairy to trimmed, innies to outies, meaning you get the whole package. It's a great (although X-rated) conversation starter, and it can appeal to historians, vagina connoisseurs, and anyone that really, really likes vagina. Pick it out, open it up, and enjoy it thoroughly.
