

## All About Schiller's Marilyn

This lovely portrait of Marilyn – taken during filming of *Let's Make Love* - adorns the cover of Lawrence Schiller's *Marilyn & Me* (due out in May, currently **£11.32** at Amazon UK), though rather disappointingly, this **standard edition only contains 18 photos**.

The [boxed set edition from Taschen](#) is an altogether more spectacular affair – but then, it will set you back **£650.00** (or a slightly more reasonable **£487.50** from The Book Depository.)

While I'm sure Taschen's version is beautiful and will certainly become a collector's item, I think it's rather unfair on ordinary fans. Hopefully a more affordable photo book will be published in future.

Meanwhile, Schiller's work with Marilyn will also be featured in an upcoming issue of *Vanity Fair*.
