

## RYDEN HIGH

Most bookshelves couldn't contain **Pinxit**, the new limited-edition collection of work by "Pop Surrealist" Mark Ryden: The tome unfolds to allow certain works to span almost five feet.

Ryden's unmistakable work features strange, arresting, and sometimes disturbing images of children, mystical animals, and enchanted forests. The signed book, leather bound, embossed, and specially packaged, might not hang on your wall, but it's certainly a work of art. \$1,000; [Taschen.com](http://Taschen.com)
