

Jazz Covers Vol. 2

Back in November 2008, I wrote about Taschen's [Jazz Covers](#) book, so I wanted to mention the publisher is now offering a follow-up. The book features a selection of top 10 favourite records by the likes of [King Britt](#), [Gilles Peterson](#), [Rainer Trüby](#) and others, as well as interview with Blue Note engineer Rudy Van Gelder, label founder Creed Taylor, producer Michael Cuscuna, designer Bob Ciano and [Jazz Record Center](#) owner Fred Cohen.

For a better impression, take a look at the images taken from the book over on the [Taschen](#) website. The book is 12-inch sized, has 560 pages and is available now for €39.99!
