6. 100 Contemporary Houses, £34.99, Taschen

Architectural writer Philip Jodidio has had the task of selecting 100 of the most interesting homes created by architects in the last decade. The inspirational result is a two-volume collection of amazing buildings from around the world, each unique to its owner and surroundings. Ranging from mobile camping cabins to clifftop villas, each project is captured with several photos and multi-lingual text. Look out for some amazing kitchens.
