

MARC NEWSON: THE GOSPEL ACCORDING TO MARC

How do we define the work of Marc Newson? He's worked across so many design mediums its rather difficult to know. In fact, his output of work from mass produced household nick nacks, to limited edition furniture, and even fashion, is so profound that like God, we're thinking 'creator' is probably the most appropriate of titles. Leather bound and slipped inside a Micarta cover, the new Limited Art Edition of Tachen's Marc Newson Works is as carefully considered as any product he's turned his hand to. Will make an excellent addition to 10 Towers spilling shelves of inspo, should we be able to get our hands on more than a review copy. It's limited to only 100 copies people!
