Helmut Newton
(Taschen; taschen.com)
£34.99

This rare and unique title showcases the work of Helmut Newton, possibly fashion's greatest photographer. Spartanly designed, with just one or two polaroid-sized images per page, the book contains test shots used by Newton to help frame his subjects and refine the final images from some of his greatest shoots over a period of decades. Selected by his widow June, the images in the book comprise part of an exhibition held in Berlin at the Helmut Newton Foundation, a must for any aficionado of fashion or classic photography.
